Self-evaluation

- **End-to-End Design and AI Application**: Product designer with end-to-end experience across strategy, research, interaction, UI, and design systems. Skilled in AI tools and Vibe Coding to quickly build demos and validate ideas.
- **Cross-Platform Experience & Agile Learning**: Experienced in designing for web, mobile, plugins, and smart hardware. A rapid learner who quickly translates new technologies and market demands into actionable design solutions.
- **Pragmatic Cross-Functional Collaboration**: Adept at prioritizing concurrent requirements. Collaborates seamlessly with business, software, and hardware teams to ensure the on-time delivery of complex projects.

Education

National Taiwan Normal University — Early Childhood Education — Sep 2010 - Jun 2014

Experience

JMGO — UX Designer

Apr 2023 - Sep 2025

B2C · Intelligent hardware · UX design

- **Major OS Release:** Led interaction design for a major Bonfire OS update, from requirements definition and user research to final delivery. Post-launch, average monthly usage time grew by 51% and OS satisfaction rose from 3.6 to 4.0.
- **Hardware-Software Interaction:** Designed software interactions and state feedback tailored to the device's input methods and usage contexts, creating a consistent, seamless experience across hardware and software.
- **Design system**: Established interaction guidelines and component patterns for large-screen interfaces, and partnered with the visual design team to build a design system that improved consistency and efficiency across releases.
- **Cross-Departmental Collaboration**: Worked closely with product, software, hardware, and sales teams, and presented design proposals to the CPO regularly to drive complex initiatives to launch.

Navy Fab — UX/UI Designer

Aug 2022 - Mar 2023

Agency · Shopify · Web design · Product design

- **Web design**: Conducted UI/UX analysis, proposed solutions, and created wireframes and mockups. Boosted a client's website conversion rate by 140%.
- **Product Design**: As the first and only UX/UI designer in the company, I'm responsible for end-to-end UX/UI design, from problem definition to final design delivery.

D2 Nova — Sales Representative

Mar 2019 - Apr 2022

B2B · EVOX · Cloud communication products

- **Pain Point Analysis**: Analyzed common pain points and suggested solutions for 400 clients, including companies, hotels, schools, clinics, and restaurants.
- **Cross-Departmental Collaboration**: Collaborated with technical department to ensure a smooth onboarding experience and understanding of customer needs.
- **Process Planning**: Planned processes and built customer service systems from scratch, achieving a 95% call answering rate.

Forerunner Christian Church — Art Designer/Planner

May 2017 - Jan 2019

Church · California

- **Event Planning**: Planned and managed church events, including workshops, holidays, and lectures.
- **Art Design**: Designed promotional materials with a fresh and lively style.
- **Cross-Departmental Collaboration**: Collaborated with team members and other departments.

White Factor — Sales Specialist

Sep 2015 - May 2017

Antibacterial & Skincare Products

- **Channel Strategy:** Negotiated partnerships with major e-commerce platforms and tailored marketing campaigns to distinct audience demographics.
- **Data Analysis:** Monitored sales targets and delivered performance reports, driving a steady month-over-month (MoM) growth of 3-5%.
